PACKAGES

HELLO & *congratulations*

Thank you so much for taking the time to find out more about us.

We specialize in designing and planning occasions to celebrate your love. Our favourite weddings are those that reflect the uniqueness of our couples, and we believe your wedding should be as one-of-a-kind as your love story.

FULL WEDDING

planning

Totally comprehensive, start to finish planning for busy couples that need someone to take most planning elements off of their plate. In most cases, full planning includes 12 - 18 months of ongoing work between the client and planner.

THIS PACKAGE INCLUDES

Venue sourcing, monthly meetings, email and phone correspondence as needed, day-of coordination, design and colour scheme consultation, vendor sourcing, itinerary and budget management and much more.

PARTIAL

planning

A client-led consulting package for those that are prepared to spend some time wedding planning on their own, but need a planner to weigh in and manage certain aspects of the process. Clients can choose when to involve the planner, and ask for advice and guidance when they need it.

THIS PACKAGE INCLUDES

A total of fifty (50) hours including day-of coordination. We recommend clients use 35 - 40 hours for pre-planning, and reserve 10-15 hours for considerations, a final site visit, rehearsal and the day-of!

MONTH-OF

planning

This package is suitable for clients that are planning their own wedding, but need a coordinator to manage all last minute details, including the day itself. Our work with you would begin 5 - 6 weeks before your wedding, and will help you enjoy and embrace the exciting time leading up to your wedding.

THIS PACKAGE INCLUDES

Two meetings, itinerary creation and management, final vendor confirmations and coordination, site visit to your venue with the planner, review of all vendor contracts, day-of coordination with 2 planners, and vendor recommendations in advance if you need them!

destination PLANNING

We are completely passionate about destination planning and would love to work with you to create the perfect once-in-a-lifetime getaway.

If you have a destination event in mind, please share as many details as you can with us at this point in your planning. We will want to schedule a coffee date with you to go over some particulars before deciding if we're a good fit for you needs.

Also, please note that for destination weddings, we require at least one of our planners to accompany you onsite to help guarantee the quality of our work.

LET'S WORK
together
